Hinweis zur Erstellung der „Heatmap“, Abbildung 2 in Kapitel 4: Über eine Anwendung der amerikanischen „National Library of Medicine“, die unter https://pubmed.ncbi.nlm.nih.gov/ erreichbar ist, kann man nach wissenschaftlichen Quellen in der Form von publizierten Artikeln suchen. Ich habe jeweils aus den Schlagwortkombinationen der beiden Kategorien A und B die Anzahl der wissenschaftlichen Publikationen innerhalb der letzten 5 Jahre bestimmt und diese dann in Relation zur Gesamtanzahl der Publikationen in einem Feld gesetzt. Daraus kann man eine relative Häufigkeit von 25% errechnen. Wenn man dies für alle Kombinationen in gleicher Weise durchführt, erhält man eine Häufigkeitsverteilung.
